

KPZ Table and Counting Scale

KPZ 2-02-4(E) 
Universal Precision scale
 Inexpensive version

KPZ 2-03-3(E) 
Universal Precision scale

KPZ 2-03-10(E) 
Digital Multi-Purpose Scale
 IP 65

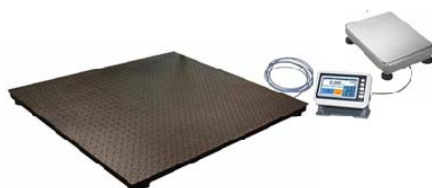

KPZ 2-04(E)-7 
High resolution and counting
Precision scale
 Inexpensive version

KPZ 2-04(E)-3 
High resolution counting Precision scale

KPZ 2-04-8
Highly accurate counting scale

KPZ 2-08-2 
Dual Digital counting scale system

KPZ 2(E)-06A 
Bench scale
 Inexpensive version

KPZ 2(E)-06S 
Bench scale
 Capacity up to 900kg

KPZ 2E06N 
Bench Scale
 Stainless steel, DIN 1.4301 / IP67/68
 and IP 69K

KPZ 2E-07-2N 
Wall folding scale
 Stainless steel, DIN 1.4301 / IP67/68
 and IP 69K

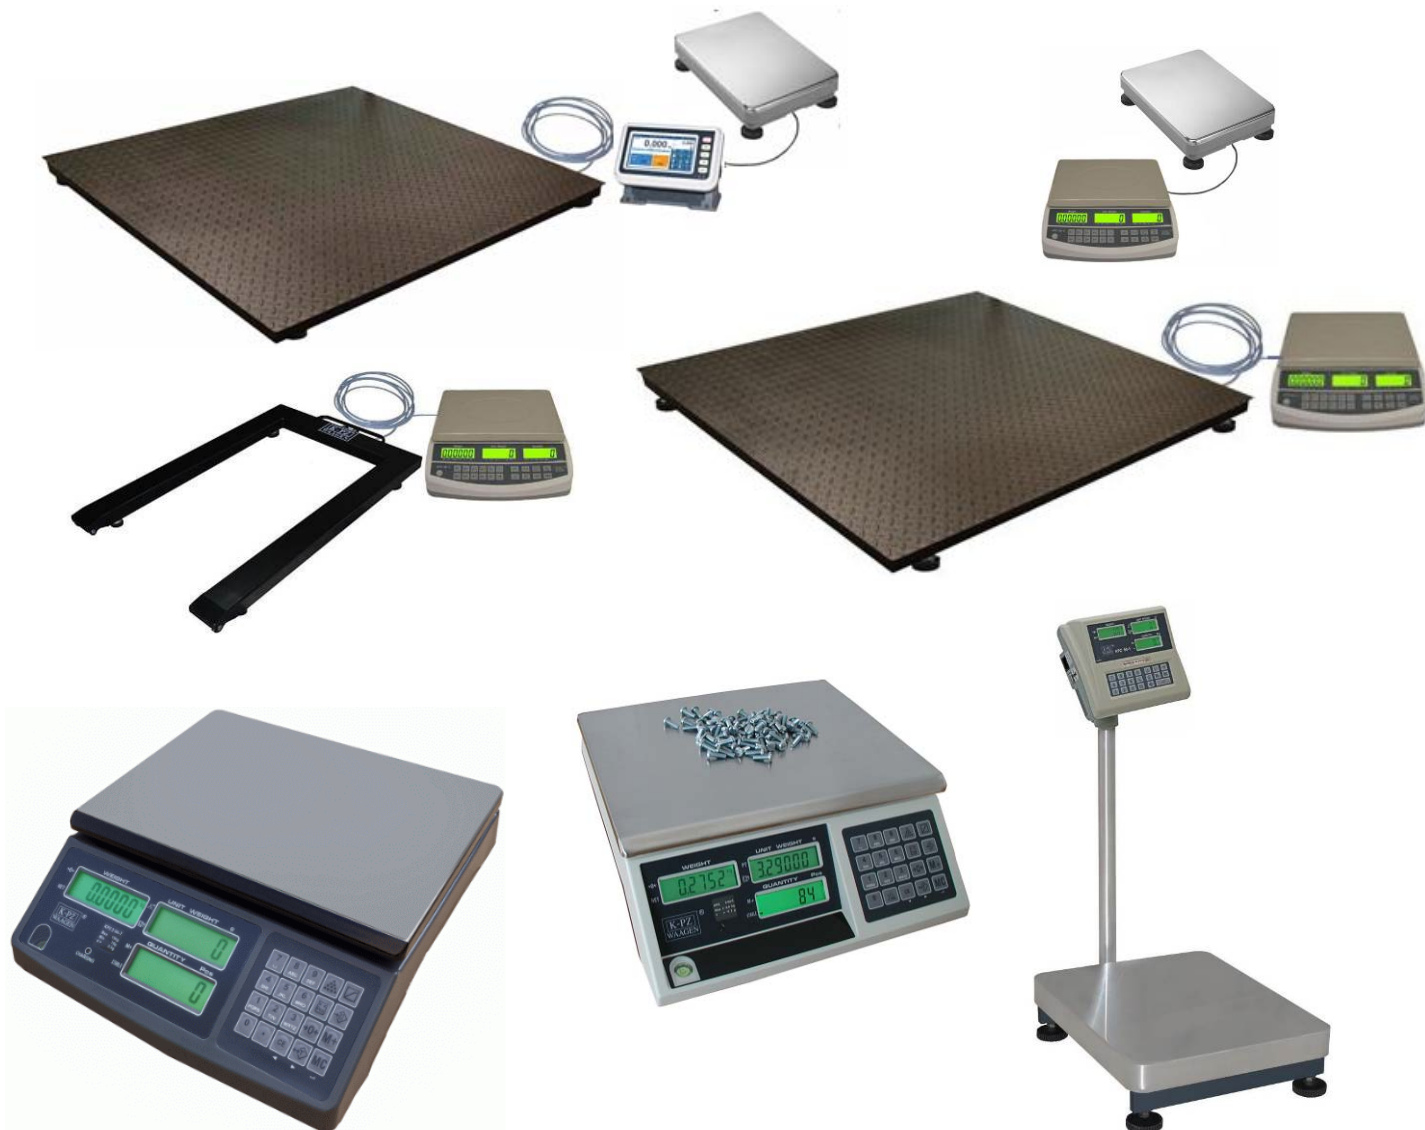

KPZ 2113
Postal Scale
 Capacity : up to 60 kg
 Inexpensive version

KPZ 2114
Digital VET Platform scale
 Capacity : up to 150/300kg

KPZ 2-04-8 / Highly accurate counting scale

Robust highly accurate counting scales up to 30 kg for industrial use

Indicator division: 1/60.000 with internal division up to 1/600.000

Counting scale KPZ 2-04-8 platform dimensions are 230 x 300 mm.

This high quality, highly accurate counting scale can be used anywhere in industry. On the basis of high resolution and precision of internal resolution can be easily calculated a large number of small parts. Furthermore, it follows from this great stability and repeatability.

Indicator with 3 LCD-display allows the operator to capture all the important data at a glance. This extremely durable construction, an additional protection against moisture resistant battery built and optimized using waterproof membrane keypad makes this counting scale indispensable daily helper cell. The scale can be powered by battery or mains. The platform is made of stainless steel and is removable for cleaning

Standart options:

- Indicator division: 1/60.000 with internal division up to 1/600.000
- Programmed auto calibration
- Automatic zero setting
- Counting (smallest weight 1/5 division of Indicator). Scale counts small pieces.
- Tare value can be weight or put manually.
- Scale has over **100** (freely programmable) memory for the number of goods and description of goods.
- Place the loaded amount of memory in addition to counting parts in the overall piece, and its total weight
- Weight and quantity (calculated results) can be added in memory.
- Quantity and weight control, weighing in tolerance section (Checkweighing)
(Signal tone when crossing weight value).

Functions : 3 LCD's, 6-digit, 20 mm high, \leftrightarrow =100 % -tare weight input by weighing-in or manual input, negative value indication, automatic calibration, manual and automatic addition function, check function for piece quantity, check function for weight, automatic piece weight new calculation. Self-test function, automatic zero setting, NET weight display, scale 1 or 2-function indication, Memory accumulation M+, operating temperature : from 0°C up to +40°C.

KPZ 2-04(E)-7 / High resolution and counting Precision scale

Robust Counting scales up to 30 kg for industrial use

For use with or without EU approval /

1/600000 Internal divisions
1/30000 External divisions
High accuracy
Robust construction
Counting function
Inexpensive
Manual tare
Zero setting
230 V mains
Option : Battery

Inexpensive version

Approvals: OIML class III , CE conform

Power Supply: 230 V mains, Power cord

This high resolution, quality, precision scale can be used in variety of non approved applications. Due to the high accuracy display resolution, combined with the expanded internal resolution this scale provides precise and stable indication with additional high performance repeatability. The robust construction, additional humidity barrier, built-in rechargeable battery, highly visible 3 window LCD display and waterproof front membrane keyboard make this precision scale a benefit to all types of high accuracy industrial weighing & counting applications.

Standard Features: External resolution : 1/30.000 & 1/15.000: Internal resolution 1/600.000 & 1/300.000. Built in calibration routine. Automatic and manual zero function. 100% Tare. Piece counting. The tare value and the individual piece weight can be entered by weighing out or via the numeric keyboard. The scale has a 10 item memory for programming of individual piece weights used constantly by the operator. The three window backlight LCD display provides weight, unit count and average weight per unit. Both the weight and piece counting result can be accumulated in the memory. The scale has an audible alarm/check function for either weight or piece quantity, Mains & rechargeable battery operation, Stainless steel weighing platform which can be fully removed for cleaning.

KPZ 54-* / Touch screen indicator

- **Touch Operating System for user friendly and fastest operations.**
- **Multi-printer selectable**
- **Custom printout options,**
- **Multi -language support**
- **Report management.**
- **PC keyboard and Mouse can be connected**
- **Software upgrade option.**
- **9999 products possible to store in memory.**
- **designed for multiple use, such as Weighing, Target, Counting, Check weighing and Recipe operations.**
- **2xUSB port, 1xRS232, optional more ports possible**
- **7' or 8' display possible**
- **Robust ABS or stainless steel housing possible**
- **Dual scale option (extra charge) possibility**
